Selling the items

I think it was a really good idea to go down to the farmers market even though I didn't go yet because I stayed back. I think if I would've gone to the farmers market I would be very good at it because I love helping people and talking to people and introducing myself to them.

Donating

This makes me feel good that people want to donate dog toys and dog treats for the dogs because I feel like dogs are happier with their toys and treats. This is important to me because some dogs don't have anything for their dogs. The owners can't use the bandana and the dog toy to bring happiness to their dogs so I'm glad we're doing it for the dogs.

Moving forward

What happens next year? Lets see, I think we should start making cat toys and cat clothes and cat food/treats. I think it will be good because some people have cats not only dogs.

Participating in this project

I learned that doing good and helping others is amazing. I think It is a good idea to keep helping others and their animals. I want to learn everything and new things. My strengths are helping other kids when they need help and being part of an activity and learning new things about myself.
